TRUMPETS AND OTHER HIGH BRASS

A HISTORY INSPIRED BY THE JOE R. AND JOELLA F. UTLEY COLLECTION

by **Sabine Katharina Klaus**

The five-volume series **Trumpets and Other High Brass** is based principally on the Utley Collection at the National Music Museum, while also referring to instruments in many other collections. Volume 1 was published in spring 2012, and the series now continues with

Volume 2: WAYS TO EXPAND THE HARMONIC SERIES

This latest volume deals with instruments in which the single harmonic series is expanded in some way: with crooks, slides, tone holes, or keys. It traces the slide trumpet from its ambiguous beginnings, its blossoming in England to its use in vaudeville and jazz. It discusses the emergence of the cornetto from early fingerhole horns and its relation to the serpent. Important documents delineating the emergence of the invention and the stopped trumpet are presented for the first time in an English translation. Various regional schools of the keyed trumpet and keyed bugle are outlined in great detail. Recently discovered documents that shine new light on the early history of the keyed bugle are fully transcribed. The book concludes with an illustrated checklist of all relevant instruments in the Utley Collection.

Hardcover, 332 pages, 8½ x 11", approximately 600 illustrations, the majority in full color.

Includes DVD with musical examples performed on instruments from the Utley Collection.

THE LAST TRUMPET

*A Survey of the History and Literature of the English Slide
Trumpet*

by Art Brownlow

with a foreword by Crispian Steele-Perkins

BUCINA SERIES No. 1

Art Brownlow's study is a new and thorough assessment of the slide trumpet. It is the first comprehensive examination of the orchestral, ensemble, and solo literature written for this instrument. Other topics include the precursors of the nineteenth-century instrument, its initial development and subsequent modifications, its technique, and the slide trumpet's slow decline. Appendices include checklists of English trumpeters and slide trumpet makers.

EAST MEETS WEST

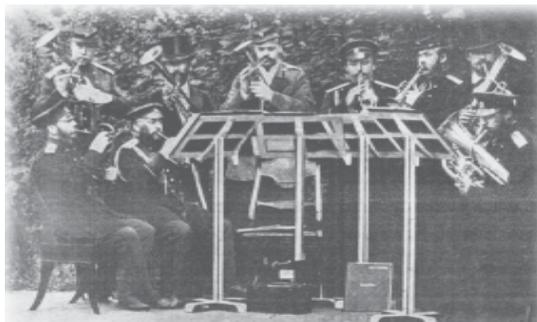

The Russian Trumpet Tradition from the Time of Peter the Great to the October Revolution, with a Lexicon of Trumpeters Active in Russia from the Seventeenth to the Twentieth Century

by Edward H. Tarr

BUCINA SERIES No. 4

The waning years of the Russian Empire witnessed the development of a rich tradition of trumpet playing. Noted trumpet scholar and performer Edward Tarr's latest book illuminates this tradition, which is little known in the West. Tarr's extensive research in hitherto inaccessible Russian archives has uncovered many documents that are relevant to the careers of noted performers. These documents are reproduced here for the first time. Tarr also draws on valuable but little-known secondary sources in Russian. A concise chronological summary of Russian political and musical developments provides an effective backdrop for this inventory of trumpeters. The author ably demonstrates how profoundly Russian trumpet-playing and pedagogy were influenced by emigrées, particularly from Germany (Wilhelm Wurm, Willy Brandt, Oskar Böhme), and how Russian-born trumpeters such as Max Schlossberg and Vladimir Drucker subsequently influenced the American musical scene. In his "Lexicon of Trumpeters, both Russian and 'Foreign,' Active in Russia," Tarr carries the story into the late twentieth century, to include modern legendary figures such as Timofey Dokshizer.

***TIELMAN SUSATO
AND THE MUSIC OF HIS TIME***

*Print Culture, Compositional Technique and
Instrumental Music in the Renaissance*

edited by Keith Polk

BUCINA SERIES No. 5

Ambitious, versatile, and extraordinarily talented, Tielman Susato carved out a distinguished place for himself in the Renaissance cultural scene. He began his professional life as a trombonist in the Antwerp civic band. This was one of the outstanding ensembles of the day, but he soon expanded his range of activity as a musical scribe, preparing manuscript col-

lections for an avid market that developed in the rapidly growing Flemish urban centers. He subsequently moved on and established one of the foremost publishing houses in Europe, providing an impeccably selected musical repertory that found a ready market then and which engenders respect even today among musicians and students of Renaissance music. In addition, he was a composer of exceptional talent, supplying superb pieces in all the genres that would have been desired in the elite urban and courtly circles of the time.

In this volume a group of prominent scholars has contributed essays surveying a broad range of topics concerning Susato. These provide details of his biography (some only recently available), discuss aspects of his publications, investigate his compositional techniques, and lay out contexts for Susato's highly varied and remarkable career.

BRASS SCHOLARSHIP IN REVIEW

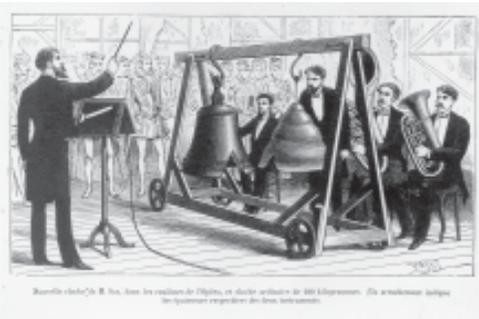

***Proceedings of the Historic Brass Society Conference at the
Cité de la Musique, Paris 1999***

Edited by Stewart Carter

BUCINA SERIES No. 6

“Les journées de cuivres anciens” (Early Brass Days), the Historic Brass Society conference at the Cité de la Musique in Paris, attracted performers, scholars, educators, and students of early brass from various parts of Europe and the United States.

Brass Scholarship in Review provides a record of the scholarly side of the conference, including reports on roundtable discussions as well as individual papers from leading authorities on early brass. Articles cover a wide range of interests, from the historical to the technical, from the Renaissance to the

twentieth century. There are articles on such diverse topics as early hunting horn signals, trumpeters in Renaissance Parma, early recordings, trumpet acoustics, and the characteristics of metals used in early instrument manufacture. The volume is particularly rich in nineteenth-century topics, including ground-breaking work on Adolph Sax as leader of the *banda* of the Paris Opéra and recent discoveries relating to the Gautrot firm of instrument makers

VALVED BRASS

The History of an Invention

by Christian Ahrens
Translated by Steven Plank

BUCINA SERIES NO. 7

In the history of brass instruments, few developments can rival the early nineteenth-century invention of the valve for enduring significance. Nevertheless, the acceptance of valved brass instruments proved controversial, as newspapers and other documents repeatedly attest. Ahrens devotes considerable attention to this heated controversy as he traces the early use of valved brass instruments in the realm of art music, military music, and *Volksmusik*.
